2017 Partnership Conference

23% response rate to evaluation (33 returns)

97% rated the conference as excellent/good,

3% rated it as satisfactory

100% would recommend the conference to a colleague

2017 Partnership Conference

Great workshops,
stalls, food, speakers
and ... venue.....

A very well
organised event.

A very good
conference that
provides the voluntary
sector that space to
discuss relevant
issues and the perfect
event for the volunteer
awards.

The presentations were great
and I particularly liked the
workshop "Unlocking the
talent of the wider workforce",
it was well delivered with some
good participation.

It is really valuable that the LA takes the
time and trouble to host this event, enables
lots of shared learning, networking and
engendering partnership working for the
benefit of NY people living around the
county and their communities.

2017 Partnership Conference

I was not impressed by the casual inclination of certain NYCC very senior persons to my point about

... a very informative and thought provoking day. I am not sure about the **awards**: although I thought that the winners all did an immense job and the schemes met a real need and purpose in their individual communities, I am not sure that, as a principle, we should be identifying specific schemes or individual volunteers.....

Felt much more relaxed in terms of having only **one session** to attend and focus on.

It would have been good to have longer to attend **another workshop**

I made some really good contacts this time around. I think this is the best part about the conference - could this element be extended?

Good event. Didn't feel like I had enough time to network but otherwise great.....

Better sound equipment for the speakers.

Ideas for 2018?

Past conferences

- 2017 - Inclusive growth: How can we all contribute to helping North Yorkshire's economy work for everyone?
- 2016 - Working together to make North Yorkshire healthier and happier
- 2015 - Working together for stronger communities
