

7. Working together

What we said we would do

Improve communication between the public sector and the voluntary sector about how to get involved in developing services for people with autism

Continue to ensure people with autism and their families are involved in developing autism support in North Yorkshire

Share progress and celebrate success

What we did

Developed a governance structure for implementing the strategy with a range of partners and stakeholders

Worked with parents to develop parent support in Craven

What we still need to do

Develop a range of ways for people on the spectrum, families, friends and carers to find out about opportunities to help develop services and get involved
