Selby Health News Feedback Self Advocate: Tony Howden

We held a workshop in Selby in October during Hate Crime week to raise awareness of Hate Crime and Mate Crime in Selby

Hate and Mate crime banners were made at open Arms and Kingfisher place to promote the week

Everyone signed a “Stop Hate Crime” hand to pledge their support and said they would talk to another person about hate crime and mate crime to help raise awareness

Health and Wellbeing Board
North Yorkshire

Selby Self Advocates have also given their opinions on the Draft Joint Health and Wellbeing Strategy update 2015

The strategy lists the things North Yorkshire plan to do to make sure people who live in North Yorkshire are healthy and happy.

Emily Trayhorn came to talk about the Street Triage Service in Selby and District

The Street Triage team is made up of mental health nurses, social workers and health support workers.

The team work with the police

If someone is having a “mental health crisis” the Street Triage team will talk to them and look after them

A person who is having a “mental health Crisis” might be feeling

- confused
- Upset
- Anxious
- Having a panic attack
- Feeling suicidal
- Hurting themselves

We asked if they have any training to work with people with learning disabilities and autism. They have no training

Richard Dalby visited the Local Area Group

He said that Tees, Esk and Wear Valley NHS Trust had won the tender for Selby and District.

Leeds and York NHS Trust had run this service before

We are interested to see how this affects our area and also to see if it means we will have a local health task group in our area as we don't have one at the moment
