Selby Self Advocates news

Regional Forum of people with learning disabilities

At the meeting in December we spoke about Transforming Care

We were asked to find out information about people in treatment and assessment units in North Yorkshire so this information can be taken back to the National Forum of people with a learning disability.

Consultations and Surveys

There have been lots of surveys and consultations recently, we have completed the following:

- Live Well, Live Longer Consultation
- Independent Advocacy Survey
- Rights and Complaints Questionnaire
- Health and social care equipment and wheelchair survey
- SeeAbility Questionnaire

Self Advocates Forum

The Self Advocates forum was held in Selby Leisure Centre in December

We looked at North Yorkshires Draft strategy Live well, Live Longer

To help everyone think about the strategy, people went into groups and we answered some questions about the strategy

Everybody watched the safe places film which starred self advocates from North Yorkshire

In the Self Advocates Forum in February we talked about what we do during the day and evenings

Karen Thornton came to talk about the community directory. She asked us how we find out what groups and activities are happening in our area

We also talked about what support we need try out new groups and what things might stop us trying out new groups
